

2023 Teaching Positions

Parade College is a member of the national body of Catholic schools known as Edmund Rice Education Australia (EREA). The College aims to help young men grow into well-rounded individuals who will make a meaningful contribution to society. In a vibrant learning community, students are encouraged to explore and develop their talents to the fullest and aim for excellence in all their endeavours.

As a long-standing Catholic school for boys in the Edmund Rice tradition, Parade College strives to be a learning community that offers best practice education and pastoral care to its students to foster fullness of life and holistic growth for all.

The Classroom Teacher at Parade College supports each student to be challenged to grow in knowledge and maturity, according to his potential, in all aspects of his life. Teachers at Parade College are highly competent, passionate and engaged in their practice. They work hard to inspire students to be critical and deep thinkers, as well as problem solvers and responsible contributors to the global community. They ensure the best possible learning environment for students and are committed to their own continued growth as a teacher.

Applications are invited from suitably qualified, highly motivated and innovated teachers, with excellent organisational skills and a passion for Catholic Education in the Edmund Rice Tradition and the safety and wellbeing of children.

Applications are sought for the following full-time ongoing teaching positions commencing 27 January 2023:

- Teacher of Business Management/Accounting (inc VCE)

The Faculties

Religious Education

The Religious Education course at Parade College has been developed within the Religious Education Framework of Melbourne Archdiocese Catholic Schools (MACS). The course is based upon standards and units from this framework and its delivery is supported by the 'To Know, Worship and Love' textbooks from the Archdiocese of Melbourne.

Students also draw from the Edmund Rice Education Australia (EREA) touchstones of Gospel Spirituality, Inclusive Community, Liberating Education and Justice & Solidarity and include the Community Action program. The course also looks at the role that our young men can play in today's modern society in helping others, being aware of social justice issues and making a difference in the future using Edmund Rice as our example and Catholic social teaching principles as a guide.

English

The study of English at Parade College aims to ensure that all our students are actively involved in reading, viewing, writing, comparing and talking about texts. Students will be encouraged to explore and engage with a range of literature and media texts so that they can explore ideas and think critically about their world.

Our aim is to give our students knowledge about how language functions, how it can reflect and shape social attitudes and assist them in achieving a better understanding of themselves, their culture and their world. The English Faculty is committed to assisting the keen student by extending their literary exposure through the study of Literature at VCE level with the opportunity for extension at Year 10.

The commitment to a high quality Literature course at Year 10 and the offer of an exciting elective aimed at keen writers will provide the diligent student with the opportunity to undertake an intensive study of both text and writing craft. These courses will suit the student who intends to excel in the literary field before undertaking his VCE.

The English Faculty also works closely with the Student Support Services to help Students who need assistance. The College is committed to empowering our students and promoting excellence. Those students who require further development of their Literacy skills are provided appropriate support.

Humanities

Humanities at Parade College encourages and challenges students to consider their place within the world around them, assisting them to develop a greater understanding of its complexity and their role in the future.

Humanities students become critical and insightful thinkers, more confident communicators and more active citizens. The study of Humanities fosters an appreciation of past and present cultures, and the ways that people interact with their environments. Our learning area is made up of a range of disciplines that provide a framework of skills in questioning, research, analysis, evaluation and communication which equip students to examine the often multi-faceted processes and systems that have shaped the modern world and investigate responses to those challenges.

Science (including Food Studies)

The Parade College Science Faculty aims to inspire and engage students; helping all students to develop curiosity and a spirit of inquiry, to be open-minded and value objectivity. Our students are encouraged to adopt critical viewpoints, to recognise the limitations of science and to respect and care for the environment, and are guided, extended and supported by dedicated and experienced staff. The study of Science at Parade College is exciting and fulfilling. Students are exposed to a diversity of innovative pedagogies and are engaged in a range of rich practical and assessment tasks that enable them to demonstrate their knowledge and understanding in a supportive, positive learning environment.

Languages

Offering the opportunity to learn a second language offers our students greater career choice and helps develop a deeper understanding of their own and other cultures. Learning a language also contributes to the cognitive development as well as the promotion of intercultural awareness. Students who study a second language enhance their thinking and reflection skills. They do this by understanding how a language operates as a system and through comparison with other language, and how other languages are structured and function for example, English. Students develop their communication skills and are provided with the tools, through comparison and reflection, to understand language, culture and humanity.

Materials Design Technology

At Parade College, Technology, Design and Creativity engages students in investigating, designing, producing and evaluating products that provide a solution to a design problem. Students are expected to work creatively by applying their imagination, together with lateral and critical thinking throughout the design processes. Product Design is a vital step in transforming ideas into creative, practical and commercial products. Students use tools, equipment and materials components safely and creatively to make quality products and/or systems. Students learn to evaluate their products and technological systems in relation to environmental, social and economic factors.
