MSF20522 Certificate II in Furniture Making Pathways

About the Course

This qualification will provide you with an opportunity to gain beginning level knowledge and skills required to manufacture free-standing furniture or built in cabinets, and/or assist in the installation of on-site furniture or cabinets.

The completion of this course in a senior secondary environment has many benefits including:

- assisting you to decide if you are suited to a trade career.
- being the preferred pathway of many building and construction sector employers when employing apprentices to complete Certificate III qualifications, and
- providing useful skills for future domestic/D.I.Y building and construction projects.

This qualification is intended for a learning and assessment environment, such as a school-based pre-employment training program, where access to structured on-the-job learning in a workplace may not be available.

It delivers broad skills and knowledge in furniture making tasks which will enhance the graduates' entry-level employment prospects for apprenticeships, traineeships or general employment in a furniture manufacturing environment or related workplace.
